

Technical Requirements

DOOP HULA HOOP

Duration: 4:30-5:15 min

I require an open space that leaves us room to warm up. We will need a minimum of 2 hours for warm up, and at least 15 minutes in the performance area prior to the performance to check lighting and sound. The music is available as a MP3/WAV file.

Inform me if any of the conditions conflict with the requirements I have listed. Depending on the situation, adaptations can be made.

For the 30 minute show, technical requirements may vary. Contact us directly if this is what you are interested in.
